TUCSON – The Tucson Metropolitan Chamber of Commerce and Coalition for a Connected West are hosting a community forum on July 19 to highlight the potential of groundbreaking new wireless technology and how it will transform Pima County and surrounding rural communities. Speakers at the community forum include:

- * James A. Stoltenberg, Operations Chief, Rural/Metro Fire Department
- * Diane Smith, board member with national organization Mobile Future
- * Steve Peters, President of the Community Information and Telecommunications Alliance
- * Matt Federoff, Vail School District Chief Information Officer
- * Galen Updike, Telecommunications Development Manager with Arizona's Government Information Technology Agency

Please use the media contact above for more information about this event.
